

**WOOD PILINGS, GROUNDWATER, AND THE BOSTON
GROUNDWATER TRUST:
A Model of Cooperative Problem Solving**

FOR IMMEDIATE RELEASE

The Boston Groundwater Trust is delighted to announce the completion of [WOOD PILINGS, GROUNDWATER, AND THE BOSTON GROUNDWATER TRUST: A Model of Cooperative Problem Solving](#).

The author, Elliott Laffer, was hired in 2004 as the Trust's inaugural executive director. Mr. Laffer's paper details the wood piling and groundwater issue in Boston, the creation of the Trust, the efforts to address the issue, the parties responsible for the progress made on the issue, the implementation of solutions, and the continued efforts of the Trust.

For more information, please visit www.bostongroundwater.org or contact Elliott Laffer, Chief Strategy Officer, at elaffer@bgwt.org.
