Re: Monitoring Wells Reversion to The Boston Groundwater Trust

Dear Ms. Cording:

On behalf of the NAMED ENTITY, the Petitioner and the Licensee for certain monitoring wells in the sidewalks WELL LOCATIONS (STREETS THEY WILL BE INSTALLED) in the City of Boston (the "Wells"), I am writing to stipulate the following:

1. The purpose of the Wells is to observe and provide data on groundwater levels. The City and the Licensee already signed and executed a License Agreement for the construction, installation and maintenance of the Wells. The Petition is currently pending before the PIC;

2. The License will expire on _____, 20__, and upon such termination, the Licensee shall, within fifteen (15) business days, revert the control, possession and all associated documentation of the Wells to the Boston Groundwater Trust. At the meantime, the Licensee shall certify, in writing, to the City for such reversion.

Please feel free to contact me with any question you may have. Thank you for your time and attention to this matter.

Very truly yours,

Acknowledging receipt and Approve of this Certificate by:

Boston Ground Water Trust
Tel:

To the best of our knowledge the BGWT has no information indicating the presence of timber pile supported structures in this vicinity. Therefore reversion of these observation wells is not of interest to the ground-water level-monitoring program
