Approximate Location of 1630 Colonial Shoreline**

**Colonial Shoreline**

**NOTE:**  
1630 Colonial Shoreline was obtained from various maps in the book, "GAINING GROUND: A History of Landmaking in Boston." Author: Nancy Stein Seasholes. (Cambridge, Mass.: MIT Press, 2003). Those various maps are based upon a reconstruction devised in 1852 by Ellis S. Chesbrough and reproduced in 1895 by Charles C. Perkins on "Plan of Boston Proper Showing Changes in Street and Wharf Lines." This shoreline is approximate and does not represent a definite line between original and man-made land.
